Jungfrauoch

For more than 100 years, the Jungfrau railway has been making its journey to Europe's highest-altitude railway station at 3,454 metres above sea level – right at the heart of the UNESCO heritage site, "Swiss Alps Jungfrau-Aletsch". Throughout the year, the cog railway runs steeply up through a 7-kilometres tunnel, to the Jungfrauoch from Kleine Scheidegg, which was built between 1896 and 1912.
